To whom this Concern:

I object to the proposed agreements, the taking away of the vision program, I am 64 years old and wear glasses. I object to taking the Dental. I take neijum every day and can not pay for it without your help.

I object to the taking away of medicare part B Special Benefit \$76.20 per month, that's \$914.40 per year.

If I had known you all were going to take everything we worked so hard for I would not have retired. Where can I find a job at now, I can no longer live off of my retirement?
